# 1 GENERAL

1. These Betting Rules are inseparably linked to our Terms & Conditions, of which they form a part, and acceptance of these Betting Rules is a prerequisite to account registration. Any capitalized terms used herein which are not defined shall take their meaning from the Terms & Conditions.
2. The minimum amount for a bet is £/€0.10. Your maximum amount for a bet differs between sports, leagues and bets. You will see the exact value specified in the field where you enter the stake amount, when placing a bet. We make no guarantee that any bet placed within or for the maximum stake shall be accepted.
3. The operator reserves right to refuse the whole or any part of any bet request for any reason and at our sole discretion. Individual bet requests may be reviewed, and an alternative price or stake offered at our sole discretion.
4. The operator accepts bets made online. Bets are not accepted in any other form (email, telephone, fax, etc.) and if received will be void, win or lose.
5. The operator reserves the right to refuse/cancel any bet or part of a bet before the game starts and to make ambiguous bets void, without providing any justification.
6. Customers cannot cancel or change a bet once the bet has been placed and confirmed.
7. Bets will be accepted up to the advertised start time. If a bet is inadvertently accepted which includes an event after its start time, unless it is a live-betting event, the match/bet will be treated as a non-runner.
8. Irrespective of which betting odds format you select for odds to be shown in your Customer account, all bets will be settled based on American odds.
9. Where we have reason to believe that a bet is placed after the outcome of an event is known or after the selected participant or team has gained a material advantage (e.g. a score, sending off etc.) we reserve the right to void the bet, win or lose.
10. The operator reserves the right to cancel any bets from customers who place money on an event where they are in any way involved, as participants, referee, coach etc.
11. The operator reserves the right to withhold payment and to declare bets on an event void if we have evidence that the following has occurred: (i) the integrity of the event has been called into question or (ii) matchrigging has taken place. Evidence may be based on the size, volumes or pattern of bets placed with the operator across any or all of our betting channels.

12. When an event is cancelled, all related bets will be void automatically and accounts refunded.
13. If any match is abandoned due to injury, bad weather, crowd trouble etc. all bets that have already been settled up until the time of abandonment will stand. For example: If a football match is abandoned in the second half, all bets involving the 1st half will stand. What's more, if there has been a goal scored, the first goal scorer market will stand, but the last and any time goal scorer bets will be void. For tennis: if a player retires injured in the 3rd set, all bets to win the 1st and 2nd sets will stand.
14. The operator does not accept any responsibility for typing, human or palpable errors, which lead to obvious price errors. In such cases all bets will be deemed void.
15. Multiple bets that combine different selections within the same event are not accepted where the outcome of one affects or is affected by the other. If such a bet is taken in error, the bet will be cancelled.
16. The operator offers you the ability to bet in play on a variety of global sporting events and while we do make every effort to ensure all live betting information is accurate, there may be situations where such information is incorrect, due to delays or otherwise. When checking live betting odds, live event start times or any other live event markets, please be aware that such information is provided as a guide only and we accept no liability for the outcome of any inaccuracies which may occur. It is the sole responsibility of the customer to check such information is accurate at the time of publication.
17. The official result is final for settlement purposes except where specific rules state the contrary. The podium position in Grand Prix racing, the medal ceremony in athletics and any similar official ceremony or presentation in other sports are to be treated as the official result.
18. Winnings will be credited to the Customer's account following confirmation of the final result.
19. The operator reserves the right to void any or all bets made by any person or group of persons acting in an attempt to defraud us.
20. The operator reserves the right to void any bet that may have been accepted when the account did not have sufficient funds to cover the bet. If an account has insufficient funds as a result of a deposit that has been cancelled by the payment processing party, the operator reserves the right to cancel any bet that may have been accepted retroactively.
21. The maximum total winnings to any customer on any calendar day for bets placed with the operator is £100,000.00 or equivalent (hereafter the "Maximum Daily Payout").

## 22. Fraud and Collusion:

- a. A number of bets may be treated as being one when a Customer places multiple copies of the same bet. When this occurs all bets may be voided apart from the first bet struck. A number of bets that contain the same single selection may be treated as being one. When this occurs all bets may be voided apart from the first bet struck. An example would be where 1 particular selection is repeatedly included in Multiple bets involving other short-priced selections.
- b. Where there is evidence of a series of bets each containing the same (or very similar) selection(s) having been placed by or for the same individual or syndicate or individuals, the operator reserves the right to make bets void and suspend relevant accounts. This rule applies to both settled and unsettled bets.
- c. If you have played in a professional capacity, or in tandem with other Customer(s) as part of a club, group, etc., or placed bets or wagers in a coordinated manner with other Customer(s) involving the same (or materially the same) selections; in this instance we further reserve the right, at our sole discretion, to restrict the total maximum pay out for the combined total of any such bets, to the equivalent of the Maximum Daily Payout limit permitted for a single Customer (as outlined at section 17 above). The operator is for sole use on an individual basis and for personal entertainment only.
- d. The operator allows only one account per person. Any subsequent accounts opened under the same postcode/personal details/IP address that are found to be related to any existing account may be closed immediately and any bets will be voided at the operator's discretion. The operator reserves the right to reclaim any winnings attained by these means and we reserve the right to withhold all or part of your balance and/or recover from your account deposits, pay outs, bonuses, any winnings that are attained by these means.

## 2 SOCCER

### 2.1 General

All match markets are based on the result at the end of the regular time. This includes any added injury or stoppage time but does not include extra time, time allocated for a penalty shootout or a golden goal.

Video Assistant Referee (VAR) will be taken into account. Decisions made after a significant event occurs, may result in confirmed bets being voided. Bets voided will be from the time of the significant event, until the time the final VAR decision was officially announced.

An exception is made when this rule relates to friendly matches. In such cases, all match markets are settled based on the actual result at the end of the game (excluding any extra time), irrespective of whether the full 90 minutes is played. This rule applies only to matches with regular playing time of two 45-minute halves.

Some Soccer matches may have different playing schedules. In that case the following will apply:

- 90 minutes scheduled play (3 x 30 minutes). Full-time bets are still considered valid. Half-time bets are considered void.
- 80 minutes scheduled play (2 x 40 minutes). All bets are still considered valid.
- If the playing schedule is different from the above stated, all bets are void.

Should any match be played prior to the date or kick-off time denoted then bets will stand provided the wager is placed not later than the revised kick-off time.

Bets on a match or qualification are not affected if a team is subsequently disqualified from, or re-instated to the competition.

All bets on a match abandoned before the completion of the regular time will be void unless the match is rearranged and played on the same date (local time) or stated otherwise in the rules, except for bets on any markets that have been unconditionally determined.

If the game does not take place as scheduled and is not played on the same date (local time) all bets are void. An exception is made if incorrect kick-off time is announced on our website.

If a match venue is changed then bets already placed will stand providing the home team is still designated as such. If the home and away team for a listed match are reversed then bets based on the original listing will be void.

Bets will stand if we list a team name without specifying the term 'XI' in the name.

In the absence of an official source, or when significant conflicting evidence is present, bets will be settled based on our own statistics.

## 2.2 Extra Time

All bets are settled on the official statistics for the extra time period only. Any goals, corners, etc. that were taken or scored during the regulation time do not count. Extra time does not include a Penalty shootout.

If the match does not go to an Extra Time [ET] all bets are void.

You can place bets on either 1X2 FT Money Line, Handicap or Over/Under.

## 2.5 Next minute markets

Each market refers to a specific 1 or 5 minute period in the match. It is split into minutes and seconds and it is displayed as part of the market title. 00:59 seconds counts as the first minute, 01:59 counts as the second minute, and so on.

Injury time does not count. For example:

The 5 minute period 40:00-44:59 refers to the first half only and does not include first half injury time. The 5 minute period 45:00-49:59 refers to the start of the second half only and does not include first half injury time. The 5 minute period 85:00-89:59 refers to the second half only and does not include second half injury time.

Settlement will be made based on:

1. The official website of the competition
2. The data transmitted by our data providers
3. The data from the TV broadcaster covering the match

If a match is abandoned during any of these minute markets, all bets placed will be void if the time of the bet period was not completed. Bets in which the time of the bet period was completed will be settled and not declared void.

If a specified minute period is not completed, all bets will be void unless a winning market has already been established prior to the stoppage in play. All disallowed or cancelled goals, corner kicks, cards, penalties, free kicks, goal kicks and throw-ins will not count.

Goal will be settled on the time the goal is scored.

- Corner is considered to have happened when it is AWARDED (not when it is taken).
- Cards - both yellow and red cards count. Only cards shown to players on the playing field count. Cards shown to non-players (managers, coaching staff, etc.) or substitutes on bench do not count. A card is considered to have happened when it is shown.
- Penalty is considered to have happened when it is AWARDED (not when it is taken).
- Free kick is considered to have happened when it is AWARDED (not when it is taken).
- Goal kick is considered to have happened when it is AWARDED (not when it is taken).
- Throw in is considered to have happened when it is AWARDED (not when it is taken).

## 2.6 1X2

Bets can be placed by either selecting a Home Win, a Draw or an Away Win. If a game is abandoned, bets will be void.

1 - Home Win X - Draw 2 - Away Win

## 2.7 Asians

The Asian Line is a special type of handicap used for Soccer matches. Depending on the strength of each team, a handicap is issued for the game. This enables the odds for each side to be more similar, allowing more competitive betting opportunities. All bets on the Asian Handicap in live betting (including 1<sup>st</sup>/2<sup>nd</sup> half bets) are settled according to the score line. Any goals prior to the bet being placed are ignored for settlement purposes. If a game is abandoned, bets will be void.

Asian Handicap	What it means
----------------	---------------

0	You win if your team wins the match. If there's a draw (0 goals difference), your stake is refunded.
0.25	You win if your team wins the match. If there's a draw, your bet is split in half: one half is considered a win, the other half is considered a draw and its stakes are refunded.

## 2.8 Over/Under

Goals are considered regardless of whether they are scored before or after the bets are placed (unlike Asians, where the result before the bet has been placed is ignored). If a game is abandoned, bets will be void unless settlement is already unconditionally determined.

Predict if a player will score first/last/anytime goal in the match. We make every effort to offer prices for all possible participants. However, players not originally quoted will count as winners should they score the first/last goal. Own goals are ignored for settlement purposes. If an own goal is scored, the previous or the next goal (if there are any) will be taken into consideration. If only own goals are scored in the match, it will be considered as No Goalscorer result for settlement purposes.

For Live Betting, own goals will not count for first or subsequent goal scorers. If any goal is officially awarded as an own goal, the result of the following goal scorer market will count for the settlement of the original one - e.g. first goal of the game is an own goal. The scorer of the second goal will be settled as the winner for both the first and second goal scorer. In the event of the first goal scorer being an own goal and that being the only goal of the game, both the first and second goal scorers will be settled as no goal scorer.

Bets on players not taking part in the match will be void. For First Goalscorer, bets on players coming on as substitutes after the first goal has already been scored will also be declared void. If a match is abandoned after the first goal has already been scored, all winning bets on First Goalscorer and on Anytime Goalscorer (bets on players who have already scored) will stand, all other bets on Goalscorer market will be void.

If a match is abandoned before a first goal is scored, all bets will be void.

## 6.3 Gameplay specifics

Scoring à Points = Goals (scores 6 points) + Behinds (score 1 point)

Like many other codes of football, the way to score points is to score goals. In Australian Football, there are two types of scores: a goal and a behind.

A goal umpire judges whether a goal or behind is scored.

## 6.4 Game length

The length of a game of Australian Football can vary from league to league, but is generally around 15 to 25 minutes per quarter. In the AFL, each quarter runs for 20 minutes plus time on – which makes up for time occupied in stoppages, such as when the ball going out of bounds, injuries, goals (or behinds) being kicked, or when the umpire is setting the angle of a free kick on goal. Time is kept by two off-field officials, known as "timekeepers", who sound the siren at the start and end of each quarter. A typical AFL quarter might run from 27 to 33 minutes, but may be even longer if, for instance, injuries cause delays. AFL breaks after the first and third quarters are six minutes, with a 20-minute break at halftime.[5] Thus, a match with quarters averaging 30 minutes would last about two and a half hours.

## 6.5 1st Quarter / 2nd Quarter / 3rd Quarter / 4th Quarter

Bets settled on 1st/2nd/3rd/4th – Quarter Result final result only.

If a match is abandoned at any time those Quarter markets that are already determined will stand.

## 6.6 1st Half / 2nd Half

Bets settled on the first/second half result only.

Bets will be void if the match is abandoned before half time.

If a match is abandoned during the second half all first half bets are still valid.

## 6.7 Outright

Bets on suspended games (which have already started) will carry over and have action as long as the game is resumed within 36 hours of the original start time. If a suspended game is scheduled to be resumed more than 36 hours after the original start time, all bets will be void, unless the wager has been unequivocally determined prior to the game's suspension. This applies unless otherwise stated.

If a game is terminated before becoming official (not planned to be resumed from where it was halted) all bets will be void, unless the wager was already determined (i.e. game is terminated in 3rd inning, settlement on 1st inning O/U still stands).

An exception is made for games in which a Mercy Rule is used: the result at the time of the Mercy Rule call will be used for settlement purposes.

All bets include extra innings unless otherwise stated.

There must be at least 5 full innings of play unless the home team is leading after 4½ innings, for bets on Money Line to have action. If a game is called or suspended, the winner is determined by the score after the last full inning unless the home team scores to tie, or takes the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is called. Monies will be refunded if the home team ties the game and it is then suspended. suspended games will not carry over to the following day.

The game must go at least 9 full innings (or 8½ innings if the home team is ahead) for bets on Over/Under or Run line to have action with the exception of when a result has already been determined.

Extra Innings market refers to any inning(s) played after the full 9 innings ended in a tie.

Highest Scoring Period will be settled with the result including any extra inning(s) played.

For 7 innings games the game must go at least 7 full innings (or 6½ innings if the home team is ahead) for bets on Over/Under or Run line to have action unless specified otherwise.

In 2-way markets push rules apply unless otherwise stated below. Stakes on single bets are returned, and in multiples/parlays the selection is treated as a non-runner.

If a match venue is changed then bets already placed will stand providing the home team is still designated as such. If the home and away team for a listed match are reversed then bets placed based on the original listing will be void.

In the case of a suspended MLB Playoff game, or College Baseball Tournament game, all wagers have action and will be graded after the completion of the game.

Statistics provided by the official website of the relevant competition will be used to settle wagers. In the absence of an official website, or when significant conflicting evidence is present, bets will be settled based on an official score provider.

On any live prop, the player(s) must either throw at least one pitch (if pitcher) or record at least one plate appearance (if position player) in the designated game for the wager to have action. For any pre-live prop to have action, the game must go at least 9 innings (8.5 innings if home team are ahead), or 7 innings (6.5 innings if home team are ahead) in a 7-inning game, unless the outcome of the prop has been determined in an official, shortened, game. Pitcher propositions “Total Runs Allowed” include both earned and unearned runs.

Head to head player props for a specific game will have action as long as those players start and the game becomes official.

If a plate appearance market is offered and it is not recorded during the inning specified in the market header, wagers on that market will be void. The official ruling made by Major League Baseball on what constitutes a plate appearance for a given player will be used for settlement purposes when determining whether the plate appearance was recorded in the specified inning. Similarly, if a pitch result market is offered, and that pitch is not recorded during the plate appearance/inning specified in the market header, wagers on that market will be void. An “Intentional Walk” will be included in the settlement of “Walk” for all plate appearance markets.

“In-Play Out” will be settled as the winner for any batted ball that results in an out(s) being recorded.

“Out” will be settled as the winner for any batted ball that results in an out(s) being recorded, as well as a strikeout.

### Next Plate Appearance (2-way)

The official ruling made by Major League Baseball on what constitutes a plate appearance for a given player will be used for settlement purposes when determining whether the plate appearance was recorded in the specified inning. The “No” selection in this market is settled as “any other result” besides a hit, walk, or hit-by-pitch. Plate appearance must be in the specified

inning for the listed batter and against the listed pitcher, otherwise the bet will be void. If a plate appearance is incomplete at the end of an inning, bets will be void.

Specific Scenarios:

- Interference, Obstruction, or Sac Bunt/Fly will be settled as “No.”
- Intentional walk will be settled as “Yes (Hit/Walk/HBP).”
- The “No” selection in this market is settled as “any other result” besides a hit, walk, or hit-by-pitch (“HBP”).

### **Next Plate Appearance Next Pitch Result/Pitch Count**

- “No” will be settled as the winner if the specified player does not hit a home run, or the result of the player's at-bat ends with that player not being on base (including scenarios such as the batter recording a hit but being thrown out trying to stretch a single into extra bases, etc.).

### **Pitch Result (Listed Pitcher)**

- Hit by Pitch, Pitch Out, Intentional Ball (even if not thrown by the pitcher) are included in the settlement for “Ball.”
- “In Play” includes any type of hit (single, double, etc.) in addition to any batted ball which results in an out(s) being recorded.

### 3-Batter Reach Base

- All bets stand irrespective of pitcher or batter substitutions. “No” selection in “On Base” markets include “any other result” besides a hit, walk, or hit-by-pitch. Interference, Obstruction, or Sac Bunt/Fly will be settled as “No.”
- The bettor is making a prediction for each of the first three batters due up in a half inning. The prediction for each batter is whether they will reach base or not (ex. no|yes|no is betting that the first and third batter of that half inning will not reach base, and the second batter will reach base).
- “Reach Base” will be settled as the winner if the specified player hits a home run, or the result of the player’s at-bat ends with that player being on any base.
- This bet is action regardless of any pinch hitters, pitching changes, etc.

If the fight does not take place as scheduled and is not played on the same date (local time) all bets are void. Exceptions are: 1) if we advertise an incorrect start time and 2) if we set up a fight using an expected date before the exact date is known. Once an official announcement is made regarding the fight date the fight will be corrected to the official date and will then be subject to normal rules.

The bell sound is the sign for the beginning of the first round for betting purposes

When a fighter fails to answer the bell for the next round then his opponent will be deemed to have won in the previous round.

In declaration of a "No Contest" or "Technical Draw" all bets will be void and stakes will be refunded, with the exception of markets where the outcome has already been determined.

### 9.2 Winner

All bets will be valid regardless of changes to number of rounds to be fought. Declaration of a draw - all bets will be void and stakes will be refunded, except otherwise stated Moneyline (3 Way). This includes a fight which ends in a Majority Draw. Bets will be settled on the official result announced in the ring. Subsequent appeals/amendments do not affect settlement (unless the amendment was made due to human error when announcing the result).

### 9.3 Method of Victory

If for any reason the number of rounds in a fight is changed then bets already placed will be void and stakes returned.

Draw or Technical Draw - Draw is scorecard draw. Technical Draw is if the referee stops the fight before the start of the 5th round, for any reason other than Knockout, Technical Knockout or disqualification and results in all bets being void.

Any corner retirement will be considered a technical knockout unless the fight is subsequently decided by the judges' scorecards, or is a declared a No Contest.

Technical Decision - Decision is on scorecard points between the judges. Technical Decision is settled by the judges' scorecards at any time other than at the end of the scheduled rounds. In the event of a Technical Decision before the end of the fight all markets that can be settled as Decision will be settled as Decision.

## 9.6 Round or Group of Rounds Betting

If for any reason the number of rounds in a fight is changed then bets on round betting already placed will be void and stakes returned.

For betting purposes betting on rounds or groups of rounds is for a fighter to win by KO, TKO or disqualification during that round or group of rounds. In the event of a Technical Decision before the end of the fight all bets will be settled as a win by Decision.

## 9.7 What Round Will Fight End/When Will the Fight End

If for any reason the number of rounds in a fight is changed then bets already placed will be void and stakes returned.

For betting purposes 'Fight To Go The Distance' participant covers the bout being decided by Points, or ending in a Draw after the scheduled number of rounds.

In the event of a Technical Decision being declared, then settlement of both markets will be based on the final completed Round. This rule applies to Total Rounds as well.

In competitions where a Bowl Out or Super Over determines a winner then bets will be settled on the official result.

## 11.3 Innings Runs/1st Innings Score

If Duckworth-Lewis method (D / L) is called into play and the runs for one of the teams are being reduced – market will be valid for settlement.

If the match is reduced in overs, prior to match commencing, bets on Innings Runs will stand. Bets will only be voided in this scenario, if further overs are lost once match has commenced, depending on what type of match, see below.

**In One Day matches** – bets will be void if the intervention of rain or any other delay results in the number of overs being reduced by 5 or more from the originally scheduled, unless the market is already determined.

In the event of a re-calculated Duckworth-Lewis method (D/L) target for the side batting second, with the amount of overs reduced being fewer than five (5), only the runs scored by the side batting first will be used for settlement. Additional runs awarded to the side batting first for loss of overs due to the intervention of rain or any other delay will not be counted towards this market.

**Twenty20 matches** - bets will be void if the intervention of rain or any other delay results in the number of overs being reduced by 3 or more from the originally scheduled and when bets were struck, unless the market is already determined.

In the event of a re-calculated Duckworth-Lewis method (D/L) target for the side batting second, with the amount of overs reduced being fewer than three (3), only the runs scored by the side batting first will be used for settlement. Additional runs awarded to the side batting first for loss of overs due to the intervention of rain or any other delay will not be counted towards this market.

**100-Ball matches** - bets will be void if the intervention of rain or any other delay results in the number of balls being reduced by 21 or more from the originally scheduled and when bets were struck, unless the market is already determined.

In the event of a re-calculated Duckworth-Lewis method (D/L) target for the side batting second, with the amount of balls reduced being fewer than twenty-one (21), only the runs scored by the side batting first will be used for settlement. Additional runs awarded to the side batting first for loss of balls due to the intervention of rain or any other delay will not be counted towards this market.

If the selected number of overs is not complete due to external factors or adverse weather then bets will be void, unless settlement of the bet is already determined.

## 11.13 Next Over Runs

Example, if any over starts with a wide, then 1 run for the wide delivery will be the settlement for first delivery despite their being no legal ball bowled. The next ball will be deemed as delivery 2 for that over. If a delivery leads to a free hit or a free hit is re-bowled because of an illegal delivery, the runs scored off the additional delivery do not count.

All runs whether off the bat or not are included. Example being a wide with three extra runs taken equates to 4 runs in total off that specified delivery.

## 12 HORSE RACING

### 12.1 General

Horse racing data is licensed from the British Horse Racing Authority.

Bets on Racing are automatically settled on the double result basis unless otherwise stated or as detailed in the double result section below.

Ante-post bets (including Non Runner No Bet) are settled at the price and place terms applicable at the time of acceptance. The advertised times of races, the runners, returns and results as published in the Racing Post (or the national press) will govern settlement of all bets, excepting errors and omissions. Should a wrong price or place term be given in error we reserve the right to settle the bet according to the correct price/place terms available at the time of the bet.

When a result is amended after the official result (i.e. the weigh-in), for example as a result of a successful appeal, the amendment will be ignored for settlement purposes.

We cannot be held responsible for any errors or omissions in respect of accuracy in publishing or issuing of prices or information, despite every effort being made to ensure total accuracy.

We reserve the right to correct these errors.

### 12.2 Double Result Concession

Double Result means if your horse finishes 'First Past The Post' you get paid as a winner, however, should your horse be awarded the race or promoted to a place, as a result of a Stewards' Inquiry or Objection which is announced before the 'Weigh In', we will also pay you. All bets placed on UK and Irish horse racing will be settled on First Past the Post AND the official result (i.e. the Weighed In result). The rules will be applied so that the settlement is always in the favour of the customer.

- First Past the Post: The immediate result after the race has been completed (see Exceptions below).
- Official Result: Announced at the 'Weigh In' on the day, after any Stewards' Inquiries and/or Objections have been considered. If a winner or a placed horse is disqualified/demoted after the official result is announced, the disqualification/demotion will not affect the settlement of bets.

## General

- The Double Result concession applies on all selections and bets that are not mentioned in the Exceptions section.
- Best Odds Guaranteed applies as normal and where advertised and applicable.
- There is no restriction on stakes that are applicable for the Double Result concession, but payouts are subject to our advertised Maximum Payout Limits as normal.

## Exceptions

The exceptions where 'First Past the Post' settlement is not applicable, and bets will only be settled according to the official result are as follows:

- Any race that is held outside the UK and Ireland.
- Any UK/Irish race that does not have an industry SP returned
- All selections that are placed under Ante-Post rules (including Non Runner No Bet).
- All selections from any market other than Racecard (e.g. Forecast/Tricast, Betting Without Favourite(s), Place Only, Match Betting and any other extra/special markets that are offered).
- All selections that are placed on horses finishing in places relevant under enhanced EW terms offers only.
- A selection taking the wrong course.
- A selection carrying the wrong weight or the jockey failing to weigh-in.
- A selection given as the winner in error by the judge
- Aintree Grand National race

## 12.3 Best Odds Guaranteed

**For UK & Ireland:** We will apply best odds guaranteed to horse racing events for races. This means that if you place your bet on fixed odds, your final price will be the fixed odds or SP odds, whichever is highest.

Best Odds Guaranteed will apply to single and accumulator bets.

Best Odds Guaranteed will apply to board prices and early prices.

Best Odds Guaranteed will not apply to ante post bets, including 'non-runner no bet' events unless otherwise stated.

In the event of a Rule 4, we pay you at the bigger odds, after the Rule 4 deduction has been applied.

Best Odds Guaranteed is available from 09:00 AM UK time each day on all UK and Irish horse races.

**The operator** reserves the right to withdraw this guarantee at any time and to apply exemptions to selected customers.

## 12.4 Each way

Bets are acceptable win or each way. Using the each way checkbox will double the unit stake placed on the winner selection.

It will contain one bet on the Winner and another bet on the Place, Terms will be written at the header of the event eg. E/W 1/4 1-2-3

For horse racing, the each way bets will be determined according to the number of runners and the table:

Number of Runners	Not Handicap race	Yes Handicap race
1 - 4	Win Only	Win Only
5 - 7	¼ odds , for Place 1,2	¼ odds , for Place 1,2
8 - 11	1/5 odds , for place 1,2,3	1/5 odds , for place 1,2,3
12 - 15	1/5 odds , for place 1,2,3	¼ odds , for place 1,2,3
16 +	1/5 odds , for place 1,2,3	¼ odds , for place 1,2,3,4

Number of runners coming under starters orders will be the number which will determine the each way terms for non-ante post races.

If non-runners take the race to less than five runners the place money goes on to win.

Some races can have enhanced odds or places and we keep the right to offer different odds and places. In these cases, we can alter the standard place terms as set out above (e.g. we may offer to pay out 5 or 6 places in a handicap with 16 or more runners but to do so at 1/5 of the odds as opposed to standard 1/4). These promotions are not confined to handicaps. The onus is on the customer at all times to check the each way terms on offer (particularly in those races where we are offering additional place payouts). In the event of subsequent non-runners in the

race we reserve the right to apply the industry standard terms for the race according to the table above.

## 12.5 Dead Heats

When a dead heat occurs for first place, the stake money on the winning selection will be divided by the number of winners, with full odds paid at the reduced stake. The remainder of the stake is lost. Where an each-way bet involves a dead heat winner, the win part of the bet will be settled as above, and the place part will be settled in full, in accordance with the relevant place terms. Should the dead heat involve placed selections and results in more than the allocated number of places, then the stakes will be divided as before, and settled to the full place terms.

## 12.6 Ante post

Ante post events will be available in advance to customers, more than 48 hours before the race. Bets on non-runner horses in ante post events will be considered lost, unless otherwise stated. Ante post events may be suspended on days when races related to the event occur.

Ante post bets will be settled according to the price and place terms at the time the bet has been placed.

We reserve the right to cancel wagers on ante post prices/places which have been presented due to typing or human errors.

## 12.7 Postponed races

If a race is postponed and final declarations stand, then the bets will stand. Bets will be void if:

- The race is declared void
- The race is abandoned
- The condition of the race has changed
- The venue has changed
- The surface has changed

## 12.8 Rule 4 Deduction

Rule 4 deduction will apply according to the following table:

Price of non-runner at time of withdrawal	Amount deducted from winnings
1/9 or longer odds on	90p in the £
2/11 to 2/17	85p in the £
1/4 to 1/5	80p in the £
3/10 to 2/7	75p in the £
2/5 to 1/3	70p in the £
8/15 to 4/9	65p in the £
8/13 to 4/7	60p in the £
4/5 to 4/6	55p in the £
20/21 to 5/6	50p in the £
Evens to 6/5	45p in the £
5/4 to 6/4	40p in the £
13/8 to 7/4	35p in the £
15/8 to 9/4	30p in the £
5/2 to 3/1	25p in the £
10/3 to 4/1	20p in the £
9/2 to 11/2	15p in the £
6/1 to 9/1	10p in the £
10/1 to 14/1	5p in the £
Over 14/1	No deduction

In the case of a non-runner, the deduction will apply according to the non-runner odds right before the withdrawal.

R4 will apply on 'Day of event race', less than 48 hours before the race.

If 2 or more horses are withdrawn, the total deduction will not exceed 90p.

Rule 4 deductions will apply to all winning bets placed before the non-runner was declared.

Example: prices available at 9:00 am.

1st non-runner declared: 10:00 am.

Bookmaker applies Rule 4 at 10:05 am.

Winning bets on fixed odds between 9:00 am to 10:05 am will be deducted according to the non-runner's last odds.

2nd non-runner declared: 11:30 am.

Bookmaker applies 2nd Rule 4 at 11:35 am.

Winning bets on fixed odds between 10:06 am to 11:35 am: 2nd rule 4 will apply.

Winning bets on fixed odds between 9:00 am to 10:05 am: 2nd rule 4 will apply but the sum of the deduction will not exceed 90p.

If a horse comes under Starter's Orders but refuses to race, the bet will be a loser. In all horse races where a runner is withdrawn, or adjudged not to have started - and therefore been declared a Non-Runner by the starter - stakes on that selection will be refunded. (The exception to this being Ante Post bets). Bets on the remaining runners in that race, taken at Early Prices or at Board Prices prior to withdrawal, will be subject to a deduction.

## 12.9 Reserves

Some races contain reserves, who may or may not be priced in our early prices lists. The finishing position of any of these reserves will count regardless of whether they are priced or not.

If a reserve horse is offered with an early price and becomes a non-runner, then normal Rule 4 deduction will be applied to all bets struck prior to the non-runner as a result of the withdrawal.

## 12.10 Forecasts

A Straight Forecast is a bet where you name two selections to finish 1st and 2nd in the correct order for a specified event.

A Reverse Forecast is a bet where you name two selections to finish 1st and 2nd in any order for a specific event.

A Combination Forecast is a bet where you choose three or more selections with any of these to finish 1st and 2nd for a specific event.

Forecasts will be accepted only in races of three or more runners and will be settled in accordance with the officially declared SP Computer Forecast Dividend. In races with less than three runners the forecast bet will be declared void. If one of the selections becomes a non-runner in a forecast bet, the total stake will be placed on the other remaining selection as a win single bet at SP.

**Example:** £1 Forecast AB, where B is a non-runner, bet will be a £1 win single on A

In races where a horse finishes alone and no forecast dividend is returned then all forecast bets nominating that horse to finish first will be settled as a Win single at SP on the winning horse. All other forecast bets in the race are lost.

In a Combination Forecast, where a selection becomes a non-runner, the total stake of the bet will be divided equally between the possible forecast combinations, using the remaining selections and the forecasts, including the non-runner, becoming singles.

**Example 2:** A combination forecast (6 bets, total stake £6) ABC, where C is a non-runner, will be settled as:

- AC -> single on A
- AB -> bet stands
- BA -> bet stands
- BC -> single on B
- CA -> single on A
- CB -> single on B

In the event of a dead heat, separate dividends will be declared for all the horses involved in the dead heat and forecast.

Unnamed favourites are not accepted for forecast betting.

## 12.11 Tricasts

A Tricast is a bet where you name the first three selections to finish first, second and third in the correct order for a specified race, in races where a Computer Forecast Dividend is declared. A Combination Tricast is a bet where you name three selections to finish first, second and third in any order.

Any winning Tricast is paid out according to the official Computer Tricast return which is declared to a £1 stake.

Tricasts are offered on all handicap races in which there are eight or more runners declared. If there are less than 8 runners – all bets will be void.

If one of the selections becomes a non-runner in a tricast bet, the bet will be settled as a forecast on the remaining selections in the order they were selected. If two of the selections become non-runners in a tricast, the bet will be settled as a win single on the remaining runner.

**Example 1:** £1 Tricast ABC, where B is a non-runner, will be settled as a £1 Forecast AC.

**Example 2:** £1 Combination Tricast ABC, where C is a non-runner, will be settled as:

- ABC -> bet stands as AB

- *ACB -> bet stands as AB*
- *BAC -> bet stands as BA*
- *BCA -> bet stands as BA*
- *CAB -> bet stands as AB*
- *CBA -> bet stands as BA*

In the event of two or more horses dead-heating for first, second or third place then separate dividends will be declared and paid to each qualifying tricast. In fixed price tricasts the full odds will be paid with the stake being split according to the number of horses which dead-heat.

Unnamed favourites are not accepted for tricast betting.

Tricasts are accepted for singles only.

## 12.12 Favourites

Bets on First and Second favourites are accepted win-only at starting price. Early prices or board prices cannot be taken on unnamed favourites.

The favourite is the horse quoted at the shortest odds in the official starting price.

The second favourite is the horse quoted at the next shortest price.

If two horses are quoted at the same odds and these odds are shorter than those quoted against any other, then these two are equal first favourite and equal second favourite.

If two or more co-favourites are selected, the stake will be divided equally between them and paid at full odds.

## 12.13 Betting Without

Predict the result of a given race excluding a Favourite horse. The finishing position of the Favourite horse will be ignored for bets placed on this market. For example, a bet placed on Cue Card without Don Cossack (favourite) will win if Cue Card wins the race or finishes second to Don Cossack. The bet will have lost in all other circumstances.

In markets where we offer 'Betting Without' a nominated selection, the place terms will be based on the remaining number of runners excluding the nominated selection.

Any each-way terms advertised are settled on the actual number of runners who take part in the race, excluding the 'without' selection.

Any rule 4 deductions will still apply and will be based on the price of the withdrawn runner in that market at the time of withdrawal.

Betting Without bets are settled ignoring the finishing position of the nominated 'without' runner. Where the nominated 'without' selection is withdrawn before the start of a race, all bets on any of the field in this market stand.

Where the nominated "Without" selection is withdrawn before the start of a race, all bets on any of the field in this market stand.

If 2 or fewer runners start the race, bets will be void.

Normal dead-heat rules apply.

## 12.14 Place Only Betting

Place Only 2 - Predict a horse to finish in one of the first two places. Place only bets are accepted on horse races of five or more runners.

Place Only 3 - Predict a horse to finish in one of the first three places. Place only bets are accepted on horse races of eight or more runners.

In the event of a horse being withdrawn, not under starter's orders, stakes on that selection will be returned. Bets for the remaining horses in the race will be subject to a deduction in accordance with the Rule 4 table below based on the price in the Place Only market of the withdrawn horse(s) at the time of withdrawal.

Price of non-runner at time of withdrawal	Amount deducted from winnings		
	Place Only 2	Place Only 3	Place Only 4

If 2 or more horses are withdrawn, the total deduction will not exceed 90p.

If the selected horse is withdrawn from a race after coming under starter's orders, bets placed on that horse will have lost as the horse will be deemed to have been a participant in the race. In the event of non-runners, the number of places paid will remain the same, unless the number of runners in the race is equal to or less than the number of places paid, in which case all bets will be void. This market is settled on the official place terms of the race. If an 8 horse race with each way terms of 3 places is reduced to a race of 7 or less runners, we will still pay 3 places on the Place Only market.

Normal dead-heat rules apply.

If a match is not played or is postponed, bets on it will be void, unless it is played within 48 hours of the originally scheduled start time or new event will be opened for betting if necessary.

If a player/team plays with a misspelled nickname or with a smurf account, the result and the bets are still valid, unless it is clear that this is not the player/team that was supposed to play that match.

If a player/team is given a walkover for at least one game/map/round before the match starts, all bets will be void.

If a game in Counter-Strike: Global Offensive goes into overtime, the result after overtime will be used for settlement purposes.

In a match in which one team has an advantage of one or more maps, (due, for example, to coming from the winner bracket final), "map 1" refers to the first map played, "map 2" refers to the second map played and so on.

### 14.2 Winner Full Time

If scheduled number of rounds/maps is changed, bets on Winner are still considered valid.

### 14.3 Spread & Over/Under Full Time

Spread is a way of making odds more competitive by giving the outsider an advantage.

Spread markets are determined based on the league in which they are played. In Starcraft and Dota these are maps, in Counter Strike these are rounds, etc. The settlement is based on the final score (maps/rounds won by each team) with the given handicap (spread) being added. Over/Under, or total betting, is a prediction whether over or under stated number of games/maps/rounds will be needed to decide the winner. If the match is not completed for any reason or scheduled number of maps/rounds is changed after this market has been offered, bets on Spread and Over/Under will be void.

If less than 36 holes have been completed or outright bets were placed after the last shot of the previous completed round then bets will be void.

For Top Nationality betting, the winners will be settled in the same way as outright bets, subject to Dead-heat, with only the players quoted counting for settlement purposes. Same rules also apply to Top Nationality bets where we offer the winner market after a specific round of a tournament.

## 15.11 54, 72 & 90 Tournament Hole Match-Ups

Bets stand once the players have teed off the first hole.

Whichever player completes the most holes is deemed the winner. If both players complete the same amount of holes the player with the lowest score is deemed the winner.

If the scheduled number of rounds is reduced by bad weather, bets will be settled so long as there is a deemed tournament winner and a minimum of 36 holes played. The winner will be the player leading after the last completed official round.

If a player is disqualified or withdraws after starting, either prior to the completion of two rounds or after both players have made the cut, then the other player is deemed the winner.

If a player is disqualified during either the 3rd or 4th rounds, when the other player in the match bet has already missed the cut, then the disqualified player is deemed the winner.

## 15.12 Dead-heat rules

If 2 or more selections finish in the same position, the stake will be divided proportionally.

### Example:

The final positions in golf are the following:

1st position: Player A

2nd position: Player B

3rd position: Player C

3rd position: Player D

3rd position: Player E

6th Position: Player F

7th Position: Player G

Let's say you bet on Player E (e/w  $\frac{1}{4}$  1-2-3)

3rd position is shared by 3 players – Player E shares 3rd position with 2 other players - so the payment will be  $\frac{1}{3}$  stake X e/w odds

Let's say you bet on Player E (e/w  $\frac{1}{4}$  1-2-3-4)

Positions 3 and 4 are shared by 3 players.

3rd and 4th (not really 4th position since there are 3 players in 3rd position) positions are shared by 3 players – that means 2 positions pay, out of the 3 players who reached those positions:  $\frac{2}{3}$  stake X e/w odds.

Note – Dead-heat rules apply to the stake and not to the odds

## 25 GREYHOUNDS

### 25.1 General

Bets on Greyhound Racing are accepted for all BAGS (Bookmakers Afternoon Greyhound Service) Meetings, BEGS (Bookmakers Evening Greyhound Service) Meetings, races covered live on terrestrial TV or Sky Sports and selected other meetings in the **UK and Ireland** that are covered by a full service on SIS and where we specifically advertise acceptance or where betting opportunities are available on the site.

Bets are settled on the official result called by the judge and any subsequent amendments will be ignored for settlement purposes.

Unless a show, early or ante post price is either offered or requested, all bets on greyhound racing will be settled at starting price returns. The starting price (SP) is the price available at the 'off' of a race. Where an **Operator** SP or an industry SP is returned, this will take precedence over any other declared SP and will be used to settle bets where a no show, early or ante post price is requested. Where no SP is returned and no show, early or ante post price is requested, settlement will be based on the final show of betting transmitted by SIS. Where no betting shows are transmitted, greyhound bets will be void.

We cannot be held responsible for any errors or omissions in respect of accuracy in publishing or issuing of prices or information, despite every effort being made to ensure total accuracy. We reserve the right to correct these errors.

### 25.2 Each way

Bets are accepted on win or each way. Using the each way checkbox will double the unit stake placed on the winner selection. It will contain one bet on the Winner and another bet on the Place. Terms will be written in the header of the event eg. E/W 1/4 1-2

Number of Runners	Not Handicap race
2 - 4	Win Only
5 - 7	¼ odds for Place 1, 2
8	1/5 odds for place 1, 2, 3

The each way terms shown above are determined by the number of runners at the start of a race, not by when the bet was placed. If you place an each way bet for a race that is win only,

the total stake will be invested in a win. For the purpose of settlement, each way doubles, trebles etc. are settled as two distinct bets, i.e. win on 'to win' and place on 'to place'. Each way bets are not accepted on unnamed favourites.

## 25.3 Ante post

Standard Ante Post rules apply.

## 25.4 Show/Early Prices

Show prices are the current prices on offer at the course during the period before a race. Early prices are special prices compiled by **the operator** and are usually offered up until 15 minutes before the off of a race. Prices are subject to fluctuation. If you want a bet at show/early price you must request it at the time of placing your bet.

In the case of a non-runner, any bets at show prices or early prices will be settled at the starting price.

## 25.5 Re-Runs

Where a race has been declared a no-race and is re-run, all bets will stand for the greyhounds that take part in the re-run. The prices returned on the re-run will govern the settlement. Show/Early prices will stand for a re-run unless there is a non-runner, in which case all bets will be settled at the SP. A re-run greyhound race is taken in the order in which it was originally placed in the programme, irrespective of the time at which it was re-run. Where a race has been declared a no-race and is not re-run, all bets for that race will be made void and will not count for any additional race.

## 25.6 Forecasts

A Straight Forecast is a bet where you name two selections to finish 1st and 2nd in the correct order in a specified event.

A Reverse Forecast is a bet where you name two selections to finish 1st and 2nd in any order in a specified event.

A Combination Forecast is a bet where you choose three or more selections, with any of these to finish 1st and 2nd in a specified event.

Any winning Forecast is paid according to the official Computer Forecast return, which is declared to a £/€//\$1 stake.

Forecasts will be accepted only in races of three or more runners and will be settled in accordance with the officially declared SP Computer Forecast Dividend. In races with fewer than three runners, the forecast bet will be declared void.

If one of the selections becomes a non-runner in a forecast bet, the total stake will be placed on the other remaining selection as a win single bet at the SP.

In a Combination Forecast, where a selection becomes a non-runner, the total stake of the bet will be divided equally between the possible forecast combinations, with the remaining selections and the forecasts, including the non-runner, becoming singles.

In the event of a dead heat, separate dividends will be declared for all the runners involved in the dead heat and forecast.

Unnamed favourites are not accepted for forecast betting.

Forecasts are accepted for singles only.

## 25.7 Tricasts

A Tricast is a bet where you name the first three selections to finish first, second and third in the correct order in a specified race, in races where a Computer Forecast Dividend is declared. If no tricast dividend is returned, bets placed on the race will be made void.

Any winning Tricast is paid out according to the official Computer Tricast return which is declared to a £/€//\$1 stake.

Tricasts are offered on all races with 4 or more runners. If one of the selections in a tricast bet becomes a non-runner, the bet will be settled as a forecast on the remaining selections in the order they were selected. If two of the selections in a tricast become non-runners, the bet will be settled as a win single on the remaining runner.

In the event of two or more runners dead-heating for first, second or third place, separate dividends will be declared and paid for each qualifying tricast. In fixed price tricasts, the full

odds will be paid with the stake being split according to the number of runners which dead-heat.

Unnamed favourites are not accepted for tricast betting.

Tricasts are accepted for singles only.

## 25.8 Favourites

Bets on the Favourite are accepted win-only at the starting price. Early prices or board prices cannot be taken on unnamed favourites.

The favourite is the greyhound quoted at the shortest odds in the official starting prices.

Where you nominate the favourite and two or more runners start at the same odds and these odds are shorter than those quoted against any other, then these two are equal first favourites and equal second favourites.

If two or more co-favourites are selected, the stake will be divided equally between them and paid at full odds.

## 25.9 Trap Challenge

We may provide fixed odds betting on which trap will win the most races at either one greyhound meeting or two meetings combined.

## 32 SINGLES, ACCUMULATORS AND SYSTEM BETS

Broaden your betting possibilities by going beyond the 1 selection opportunities offered by singles betting... Discover a world of winning chances across multiple selections with Accumulators and System bets...

### 32.1 Singles and Accumulators

Bet name	No. of Selections
Single	1
Double	2
Treble	3
4-Fold	4
5-Fold	5
6-Fold	6
7-Fold	7
8-Fold	8
9-Fold	9
10-Fold	10
11-Fold	11
12-Fold	12
13-Fold	13
14-Fold	14
15-Fold	15
16-Fold	16
17-Fold	17
18-Fold	18
19-Fold	19
20-Fold	20

In all cases, all selections must be successful to be a winner. If one or more selections from the accumulator are cancelled, the bet stands as soon as at least one of the remaining selections is settled as a winner or loser.

### Push

This is a game / selection that is tied after taking the handicap/spread into account. All bets will be void.

### Non-Runner

A non-runner is a selection that is named but doesn't take part in the event. If your selection is a non-runner, your bet will be void (and your stake returned). If the selection is part of an accumulator (multiple), the bet will become the next accumulative bet down, e.g. a treble becomes a double, a double becomes a single, etc.

### Void

In all cases where the term 'void' is used, settlement will be as follows:

- Single bets - stakes will be refunded.
- Accumulator (Multiple) bets - void selections will be treated as non-runners within the bet, meaning if the selection is part of an accumulator (multiple), the bet will become the next accumulative bet down, e.g. a treble becomes a double, a double becomes a single, etc.

## 32.2 System Bets

### 32.2.1 WHAT IS A SYSTEM BET?

System bets are similar to accumulators or accumulators in that you choose several selections within one bet, but all possible combinations of bets from those selections are covered, with the advantage of winning even if not all picks are winners.

Systems bets are presented as two numbers separated by a slash: eg. 2/4, with the first number denoting the type of bets involved (in this case, doubles), and the second number denoting the number of selections involved.

For example, in a 2/4 system bet, you would choose 4 selections and click on the System tab at the top of the bet slip, where you would then see your system bets options. The 2/4 system bet

is made up of the 6 possible combinations using your 4 selections, so a stake of £0.50 would cost £3. Even if only 2 of those possible combinations were winners, your bet would win, with the return amount dependant on how many possible combinations actually win. If none or only one of your picks wins, your system bet loses. When you place your system bet, the amount of winnings shown is the maximum winnings possible if all picks win. You can see the details of active system bets by checking Open Bets under My Account.

## 33 HANDICAP BETTING

### 33.1 Asian Handicap

The Asian Line is a special type of handicap used for soccer matches. Depending on the strength of each team, a handicap is issued for the game. This enables the odds for each side to be more similar, allowing for more competitive betting opportunities. All bets on the Asian Handicap in live betting (including 1st/2nd half bets) are settled according to the score line. Any goals prior to the bet being placed are ignored for settlement purposes.

Asian Handicap	What it means
0	You win if your team wins the match. If there's a draw (0 goals difference), you are refunded your stake.
0.25	You win if your team wins the match. If there's a draw, your bet is split in half: one half is considered a win, the other half is considered a draw and its stakes are refunded.
0.5	You win if your team draws or wins the match.
0.75	You win if your team wins or draws the match. If it loses with a one goal difference, you lose half of the amount staked.
1	You win if your team wins or draws the match. If it loses with a goal difference of one, your stake is refunded.
-0.25	You win if your team wins the match. If it draws you lose half of the amount staked.
-0.5	You win if your team wins the match.
-0.75	You win if your team wins the match with a goal difference of two or more. If it wins with one goal your bet is split in half: one half is considered a win, the other half is considered a draw and its stakes are refunded.
-1	You win if your team wins the match with a goal difference of two or more. If it wins with a goal difference of one, your stake is refunded.

#### Live betting example:

Juventus vs Man.United - Live score 1:0

Team	Asian Handicap	Odds
Juventus	-0.75	5/6 (1.80)
Manchester	+0.75	23/20 (2.15)

Final score 3:0

If you bet on Juventus €100, your net win is €80

Final score 2:0, 3:1

If you bet on Juventus €100, your net win €40

Final score 1:0, 1:1, 1:2, 1:3, 2:1, 2:2, 3:2, 3:3

If you bet on Man. United €100, your net win is €115

## 33.23-Way Handicap

In a 3-Way Handicap, the line is set so that there can also be a draw outcome, giving you 3 potential bets.

Handicap (-1) - You win if your team wins the match with a goal difference of two or more.

Tie: You win if the team with (-1) Handicap wins the match with exactly one goal difference.

Handicap (+1) - You win if your team draws or win the match.

## 34 EACH-WAY BETTING

### 34.1 What is an Each-Way bet?

An Each-Way (E/W) bet is a bet consisted of two separate parts - a win part and a place part. The win part of the bet is on your selection to win the event, and the place part is on your selection to finish either first or within the race's specified place terms (e.g. 2nd, 3rd, 4th, etc). The bet is very popular in horse racing since it allows you to gain returns even if your horse doesn't finish first.

### 34.2 How do Each-Way bets work?

When you place an Each-Way bet (by ticking the e/w check box), your stake is doubled, with half allocated to the outright win, and the other half allocated to your runner finishing within the place terms. Each race has specified place terms depending on the number of runners, eg.  $\frac{1}{4}$  1-2-3. In this example, an Each-Way bet placed on a runner that finishes 1st will pay in two ways: you will win the outright portion of the bet, but you will also win the place portion at  $\frac{1}{4}$  the outright odds as it finished in the top 3.

#### Example:

You place a 2 GBP Each-Way bet on a 12/1 shot in a race with E/W terms  $\frac{1}{4}$  1-2-3

If your selection finishes 1st:

- You win 12 GBP plus your stake for the outright win
- You also win 3 GBP (quarter the outright odds: 3/1) plus your stake for placing (ie. finishing in the top 3)

If your selection finishes 2nd or 3rd:

- The outright portion of the bet will lose
- You win 3 GBP plus your stake for placing

If your selection finishes outside the place terms for the race, both bets lose.

## 34.3 How do Each-Way Accumulators work?

In the case of settling Each-Way Accumulators, the win portion of the first bet will be carried over to the win portion of the following bet, and similarly, the each-way portion of the bet will be carried over to the each-way portion of the following bet.

### Example:

You place a 1 GBP e/w accumulator on selection A in Race A and selection B in Race B. This means you have an outright (win) accumulator and a place accumulator

If selection A wins and selection B only places, the outright portion of the accumulator will lose, but the place portion will win.

If selection A only places and selection B wins, again, the outright portion of the accumulator will lose, but the place portion will win.

## 35 TEASER BETS

### 35.1 General

A teaser bet allows you to adjust the points spread and game totals on two or more American Football or Basketball teams by choosing a fixed number of points. The number of teams and points selected determines your payout odds.

### 35.2 How do teaser bets work?

All selections must be successful for the teaser bet to win. If a selection in a two team teaser is a push, the bet will be considered “no action” and the stake will be refunded. A push in teasers of more than two teams will result in the bet dropping to the next level down, if available, or losing if not.

Teaser bets will only be allowed on pre-match events and only for selected leagues, including:

- i. Regular teasers for NBA, NCAAB, NFL, NCAAF or any other league in which teaser bets are allowed (4, 4.5 and 5 for Basketball and 6, 6.5 and 7 for American Football)
- ii. SUPER TEASERS: 3 teams teaser - buying 8 points, ties lose, odds -120/1.83
- iii. MONSTER TEASER: 4 teams teaser - buying 10 points, ties lose, odds -120/1.83
- iv. FOOTBALL - SUPER TEASERS: 3 teams teaser - buying 10 points, ties lose, odds -120/1.83
- v. FOOTBALL - MONSTER TEASER: 4 teams teaser - buying 13 points, ties lose, odds -140/1.71

### 35.3 Buying points

Buying points allows you to change the point-spread or game total of an American Football or Basketball game. You can move the point-spread so you get more points when betting the underdog, and fewer points when betting on the favourite. You can move the total so you get a higher total when betting the under or a lower total if betting the over.

## 37 VIRTUAL SPORTS

### 37.1 Game Play Rules

A virtual betting event takes place every 3 minutes for Football and every 2 minutes for Horse Racing and Greyhounds.

When the event is not specified by the customer, bets are registered on the next event.

Bets on the next event are accepted until the "bets closed" message appears on the screen, after which the bet will be allocated to the successive event.

Winnings can be collected once the result of an event is displayed on the results screen.

The minimum stake per bet is £0.10 with a maximum daily payout of £50,000 per customer.

A customer who places any bet on these events takes sole responsibility for his actions in placing a bet, and in checking his ticket to ensure it correctly reflects his chosen bet, and cannot hold the operator liable for any loss or damage suffered.

The operator will also not be liable for any system malfunction that may result in the nullification, cancellation or refund of a bet at any time.

No horses or greyhounds are scratched from virtual races.

There are no dead heats (position draws) in virtual races.

In case of event cancellation outstanding bets are deemed void and settled as 'cancelled'. It means that the bet stake is fully reinstated.

Bet types offered may be altered from time to time.

## 38 SPECIALS

### 38.1 General

All Specials markets are singles only. Unless otherwise stated, if a selection does not participate in an event, all bets on that selection will be settled as losers.

Settlement of Special markets will be determined based on results that are publicly announced by the official organizers of the events, where relevant. In the absence of an official organizer of an event, bets will be settled based on information sourced from reliable media sources. For Politics and Next Leader betting, interim leaders do not count as winning selections.

### 38.2 UK Elections

All betting within a given election is singles only. Accumulative bets accepted in error will be settled as singles with the stake apportioned.

Settlement of all bets will be based on the total votes cast and counted at the time of the election, and not on any subsequent legal challenge.

**Party Totals** will be counted based on the party that the elected MPs stood for in the election, and will not be altered based on any subsequent defections. The Speaker, if seeking re-election, will not count as an MP of any party.

\*Any constituency that has its election postponed from the normal polling day will not count for settlement purposes. Constituency betting on such a seat will be made void.

**Bets on an Overall Majority** require the Party to win an absolute majority of the seats contested on polling day (e.g. 326 out of 650). If no party does so then “No Majority” will be settled as the winner. If some MPs [e.g. Sinn Fein] do not take their seats that does not change the requirement under this rule.

**Next Government and Prime Minister after the next General Election** will be settled based on the first government formed after the General Election. For the avoidance of doubt, that government must pass a Queen’s Speech or win a confidence motion in the House of Commons. For a party to be considered part of a coalition they must have representation in the Cabinet. A minority government is one in which the parties forming a coalition have fewer than 326 seats.

**Turnout bets** will be settled on UK-wide turnout on the normal polling day. Vote Share Betting, including Most Votes, will apply on GB seats only (so excluding Northern Ireland), unless otherwise specified.

**US Primaries and Caucuses** - All markets will be settled on vote share, and not on the national delegate count arising from the vote. Where vote share is not declared, as in some caucuses, then we will use the number of state delegates or equivalents won to settle the market.

### **Next Party Leader Markets**

Temporary, Interim and Caretaker leaders do not count, bets will be settled on the candidate who is announced as the permanent new party leader following the outcome of a leadership vote or any other selection process.

**Bottom 3/Bottom 2** - The specified number of acts must be named in a given week/show for bets to stand. Acts named in the bottom 3 or 2 (dependant on market offered) for a specified week/show are deemed winners. Where there is a multiple eviction, bets on this market will be settled on participants evicted. If the bottom 3 or 2 is not clear, then dead-heat rules may apply.

**Deadlock** - The market is determined as Yes There Will be Deadlock/No There Will Not be Deadlock in a specified week/show. Where the format of the weekly show dictates that deadlock cannot happen (e.g. multiple eviction with no song-off), bets will be void.

**First Act Announced Safe** - Settlement is determined by the first act announced as safe, in a specified week/show. If it is unclear which act is declared safe first then dead-heat rules may apply. All participants must perform for bets to stand.

**Top 3 Finish (Whole Competition)** - Settlement is based on results of the whole series/competition. Acts placed in the top three of the competition are deemed winners. If the top three result is unclear, then dead-heat rules may apply.

For all markets; should an individual participant or group change their name during the course of the series all bets will stand and the new name version will be deemed the same as the original name version for settlement purposes.
